

# 4 Litre Laboratory Blender and Accessories

*the perfect blend of precision and power*

This top of the range blender is ruggedly constructed, easy to move and clean and fitted with full traction rubber feet for greater stability. The 4 litre stainless steel container has a see-through clamp-on polycarbonate lid and there are two handles for safe and easy lifting and pouring.

4 Litre Blender	
<b>Capacity</b>	4 litres
<b>Switch settings</b>	Off - Low - Medium - High - Pulse
<b>RPM</b>	16,000 - 18,000 - 20,000 - 20,000
<b>Rating</b>	230v, 50/60Hz, 15 amps
<b>Base</b>	Die-cast grey epoxy coating
<b>Container</b>	Stainless steel with stainless steel blade
<b>Lid</b>	See-through clamp-on Polycarbonate lid with rubber gasket and stopper
<b>Bearing</b>	High performance ball bearings
<b>Cord</b>	182cm 14 gauge, three conductor grounded cord with integral 3-pin plug
<b>Overall Height</b>	59cm
<b>Weight</b>	18.4kg

**21/2610T**  
**4-Litre Temperature Control Coil**  
 Stainless steel coil for use with 21/2610C or standard 4-litre containers. Water circulated through helical coil cools media being processed. Comes complete with cover and gasket

**21/AD1**  
**4-Litre Adapter**  
 Allows use of 1-litre and smaller containers (eg mini containers) on 4-litre motor units

**21/2610F**  
**4-Litre Foam Arrestor**  
 Adjustable baffle used to reduce foam in media. For use with 21/2610C standard 4-litre containers. Comes complete with cover and gasket

**21/2610C**  
**4-Litre Cool Base Container**  
 4-litre stainless steel container with jacketed base allowing for water cooling of bearing during extended operation periods. Unit does not include lid or cover gasket
